NOTHING BUT GENUINE MATERIAL

Used when we are given your watch to repair.
 Whether it is a mainpring, jewels, or staffs, the quality is
 considered first. That is why my repairing gives satisfaction.
 If your watch is not running right, bring it in and have it
 repaired, and I guarantee the work I do on it for one year.

Remember the name—
H. J. SNELL.
 Expert Watchmaker & Jeweller, Ross Avenue.
 N.B.—We have a full line in Cut Glass, Silverware, and all
 kinds of Jewellery.

THIS IS GOOD PAINTING WEATHER!

No rain or dust to bother you, and, in every
 way, an excellent time to paint.

Perhaps you have deferred painting be-
 cause of the idea you have of the excessive
 cost. We would like to help you see this phase
 of the matter in its true light, and to show how
 easy it is to paint your home at small cost.

Sherwin-Williams' Paints

will do it better—cheaper—and make a far
 better job than can be had by the use of any
 other. Call in and talk it over.

OUR STOCK IS LARGE.

ILLSEY BROTHERS,
 The Hardware Men.

How Are Your Eyes?

Nothing gives us more pleasure than to
 get hold of the difficult cases and fit them cor-
 rectly. When we get a patient that has been
 all around and has never had satisfaction in
 GLASSES, we just like to bend our every thought
 and energy to working out that case; for such
 people are usually very grateful for the relief
 afforded.

We've had two such patients this week.
 Besides the pleasure we get in working
 out these difficult cases, they are reputation
 builders—and that's another reason we work
 so hard to get them right, and usually succeed
 on the different cases.

RED DEER SCHOOL WIN THE SNELL SHIELD.

In A Splendid Football Game.

On Friday evening last the
 finest game of football ever
 witnessed in Red Deer took place on
 the Exhibition grounds when the
 first game for the Snell Shield
 was played off between Didsbury
 and Red Deer School, the two
 teams that were victors in their
 respective districts north and
 south from Ponoka to Crossfield
 on the C. & E. railway.

About four o'clock a special
 train from Didsbury, drew up at
 the station, consisting of four
 coaches loaded with enthusiastic
 supporters of the southern team
 who were determined to do all in
 their power to help along and en-
 courage their boys to win the
 shield. Don. Hiebert, of Dids-
 bury, the popular member for
 Rosebud, was noted among the
 visitors. Preparations had been
 made at the Alexandra Hotel to
 accommodate the guests. The
 supper was served from 5 to 7.30.
 When the players lined up
 shortly after seven it was ap-
 parent that the visitors were the
 heavier team and presented a
 neat appearance in their red
 blue sweaters. The home team
 also looked fit for a keen contest
 in their white suits.

There was a large, orderly and
 most enthusiastic crowd of spec-
 tators present who were im-
 patient for the game to be called.
 At 7.40 the game started and
 from the first it was noticed the
 home team were equal to their
 opponents and were more aggres-
 sive. The visitors had a slight
 advantage in kicking east with
 the wind and with the sun in
 their backs but the ball came up
 the field nevertheless and a
 strong attempt was made by the
 home team to score but the at-
 tempt was frustrated by the vigi-
 lance of the Didsbury backs who
 kicked to centre and the fight be-
 came general. What the home
 team lacked in weight they more
 than made up in quickness and
 in spite of the efforts of the vis-
 itors a pretty play from Coghlin
 at centre to Hewson right then
 across to Kent and back to centre
 where Postell got some high kick
 and scored the first goal for Red
 Deer in 28 minutes amidst the
 wildest cheering.

During the balance of the first
 half the visitors seemed worried
 and they nearly scored another goal
 a corner kick by Main going
 right through the goal but as
 no one touched it it was
 not counted.

At 8.30 the second half of the
 game started and the visitors
 showed up strong and vigorous.
 Their rushes were well placed
 and several times it looked as if
 they might score but each time
 they were successfully blocked
 and the ball went down the field
 again with Main generally chas-
 ing it. During one of these
 rushes when the Didsbury boys
 had left their goal rather exposed
 a second goal was scored by Kent
 for Red Deer by a very nice com-
 bination play. Didsbury had one
 very good chance for a goal but
 overshot and lost it.

The game closed 2-0 in favor
 of Red Deer School and we can
 hardly specialize for every mem-
 ber of the home team seemed to
 be in fine trim. Hoar, Logan and
 Wilson played a splendid defence
 and are worthy of mention.
 Mr. Ward, the secretary of the
 provincial league, Edmonton,

referred the game to the entire
 satisfaction of all, and never was
 a cleaner game played in Red
 Deer.

Following were the School
 team: Good, C. Smith; Banks, W.
 Hoar and W. Logan; Halfbacks
 from left to right, A. Carswell, J.
 Roughton, Wilson; Forwards
 from left to right, P. Kent, J.
 Coghlin, W. Postell, C. Hewson,
 H. Main.

PRESENTATION.

In the evening at the Lyric
 Theatre the Shield was presented
 to the Red Deer School team, and
 a silver medal to each member of
 the team.
 The chair was occupied by T.
 A. Gaetz, President of the School
 Club, and the presentation was
 made by H. J. Snell, the donor of
 the shield.

Short addresses were made by
 R. B. Welliver, H. J. Snell and
 Inspector Boyce. W. Morris fur-
 nished music, and Percy Kent
 and W. H. Hadley gave vocal
 solos. Ice cream, lemonade and
 cake were passed around and
 proceedings closed shortly after
 eleven o'clock.

The visitors took part in the
 proceedings until they were
 called out to catch their train
 which pulled out for the south
 about eleven o'clock.

H. H. Drake carries a full line of
 vegetables and green stuff.

St. Luke's S. S. Picnic.

On Friday July 10th rigs kindly
 lent by Mr. Chapman, Mr. Pan-
 rucker and others conveyed the
 children and teachers (viz Mrs.
 Reed, Miss Goodman, Miss
 Peterson, Mr. Graham and the
 Rev. Moore) to Woodlands where
 several friends and parents joined
 them making a happy crowd of
 well over a hundred. The boys
 played football and the girls
 games and swinging till tea time.
 Tea was served in the shade of
 the trees and ample justice was
 done to the good things supplied
 by the friends and parents. We
 dare not publish the amount of
 tea, lemonade, etc. that vanished.
 'Twas marvellous! but who does
 not remember 'gastronomic feasts
 of the young?' In the evening
 the sports were held and revealed
 some great running talent. After
 this a terrific scramble for nuts
 and candies. Then the distribu-
 tion of prizes by Mrs. Stent by
 whose kind invitation the picnic
 was held at 'Woodlands.' Finally
 three hearty cheers for our genial
 hostess followed by three more
 for the teachers, parents and
 friends. We take this opportu-
 nity of thanking those teachers,
 parents and friends who by their
 contributions and willing help
 made the picnic a real treat. Ap-
 pended are the prize winners in
 the sports:

Boys Races—11 and over, 1st
 Joe Edgington, 2nd D. Wilton; 10
 and under, 1st Fred Rich, 2nd
 Louis Nurcombe; 7 and under,
 Gordon Nurcombe, Albert Wel-
 ster. Girls Races—12 and over,
 Gladys Alford, Molly George; 11
 and under, Elsie Edgington,
 Marguerite Wilton; 7 and under,
 Katie Carswell, Dorothy Wilton.
 Boys Sack Race—Charlie Cars-
 well, Laurie Lewis. Boys Three
 Legged Race—Jim Krause and
 Laurie Lewis, Roy Pidgeon and
 Eric Pike. Girls Egg and Spoon
 Race—May Rutherford, Violet
 Nurcombe. Girls Three Legged
 Race—Elsie Edgington and
 Gladys Alford, Elsie Lewis and
 Freda McBride. Mixed Boys and
 Girls, 7 and under—Gordon Nur-
 combe, Vivian George, Katie
 Carswell.

NORRIS AND ROWE CIRCUS.

Speaking of the Greater Norris
 and Rowe circus, museum, men-
 agerie, hippodrome and congress
 of nations, the San Francisco
 Times, of January 31st said:
 "The Greater Norris & Rowe
 circus and hippodrome, which is
 now filling an extended engage-
 ment in this city at the Auditorium
 is without question, the cleanest,
 most novel and altogether most
 praiseworthy circus that visited
 this city in many a year. The
 performers that Messrs. Norris &
 Rowe have assembled for this
 season, are the representative
 artists in their respective lines in
 their profession. There are more
 than 200 circus champions with
 the show. The costuming is rich
 and elaborate, and the horse dis-
 play, or horse fair, is the finest
 exhibit of the kind ever seen in
 this city. The big show will exhibit
 in this town Tuesday, July 21st,
 Matinee only 2 p. m. and present
 every act and feature that they
 presented during the phenomenal
 run of sixty performances in San
 Francisco when 279,873 persons
 paid admissions to see it. A big
 street parade will be given at 10
 o'clock on the morning of the
 exhibition. By arrangement with
 the big amusement combine, the
 Norris & Rowe circus will be the
 only big show to exhibit in this
 city this season.

Penhold Rifle Association.

A match was shot between the Inis-
 fail and Penhold Rifle Associations on
 Saturday, July 11th, resulting in a win
 for Penhold by 37 points. The follow-
 ing were the scores made:

	200	500	000	Total
J. Farrar	31	26	27	84
A. Speakman	27	25	21	73
L. Donnelly	28	29	22	79
E. Carswell	24	27	21	72
W. Kennings	27	18	10	61
A. Hives	27	22	22	71
Total				442

	200	500	000	Total
W. Lumby	28	30	25	83
W. Wilson	22	12	0	43
B. McMillan	24	28	22	74
A. Sproatt	28	25	20	73
W. Osmond	28	25	17	68
W. Stevenson	21	22	21	64
Total				405

Members of the P. R. A. will please
 take notice that the annual shoot will
 be held on Saturdays, July 25 and
 August 1. Shooting to commence at
 10.30. As many as possible are asked
 to attend on one of these days, as it is
 important to secure a good percentage
 of attendance.

The Gun Club.

The regular shoot of the Gun Club
 Monday night was well attended con-
 sidering the wet evening. The follow-
 ing is the score:

Class A.—Stephenson, 22; Plaxton,
 18; Cottingham, 10; Ware, 12; Drake,
 10; Carswell, 20; Kennedy, 13. Stephe-
 nson gold button, Carswell silver, and
 Plaxton bronze.

Class B.—Wilson, 10; Parsons, 15; J.
 Brumpton, 14; Rowntree, S.R.L. Gaetz,
 16; Randall, 9; L. M. Gaetz, 9. R. L.
 Gaetz gold button, Parsons silver, and
 J. Brumpton bronze.

The score for the week was:
 Class A.—Stephenson, 16; Plaxton,
 15; Carswell, 11; Ware, 17; Kennedy,
 15. Ware gold, Stephenson silver, and
 Kennedy bronze.

Class B.—Rowntree, 11; Menzies, 6;
 Jim Gaetz, 18; Wilson, 14; Parsons, 6;
 Jim Gaetz gold, Wilson silver, and
 Rowntree bronze.

DIRECTORS FOR NORTHERN CROWN.

Sir Daniel McMillan President.

All arrangements for the consolidation of the Crown Bank of Canada with the Northern Bank, which has its head office in Winnipeg, have now been consummated.

During the past few days the directors of the Crown bank have been in Winnipeg. These gentlemen met with the directors of the Northern bank and as had been previously arranged, proceeded to the election of a board of directors from the united institutions. A certain number of the new board were, by mutual consent, chosen from the former board of directors of the Northern bank, and the others were nominated by other names from the former board of directors of the Crown bank.

The following gentlemen now constitute the board of directors of the Northern Crown Bank: Sir D. H. McMillan, K.C.M.G., lieutenant-governor of Manitoba, (president); Edward C. Gurney, Toronto, and Capt. William Robinson, Winnipeg, vice-presidents; Charles Adams, A. J. Adamson, M. P., D. C. Cameron, J. L. Coffee, Charles Magee, Hon. W. H. Montague, F. Nation, J. W. D. C. O'Grady, Hon. E. P. Robin.

The following gentlemen have been appointed local directors: R. Y. Ellis, Toronto; John M. Gill, Brookville; J. A. McDougall, Edmonton; J. W. Stobart, England; A. J. Smith, Winnipeg, Chicago; John White, Woodstock. The paid up capital of the bank now amounts to \$2,200,000, and the rest and undivided profits amounts to \$225,000.

Alcohol a "Trust Buster."

Upon the subject for fuel and light, which has been broached several times in these columns, and which a Calgary correspondent writes upon again in this issue, we have noticed some further information. A writer in the "Saturday Evening Post" Philadelphia, says:

"The first feature of an alcohol stove or lamp that impresses the observer is the small size of its fuel reservoir. One of the German stoves, for instance, with two burners like those of gas stoves is capable of cooking a meal, consuming only two-fifths of a pint of alcohol an hour. It will heat water and do other work of light character at the rate of one sixth of a pint, bringing cost down to about a cent a quarter an hour. One quart of alcohol in a special lamp gives a 150-candle incandescent light for twelve hours. A 525-candle lamp burns sixteen hours with a gallon, lighting a large interior like a riding academy. Alcohol is intensely hot as a fuel, so that a family of three persons all the cooking has been done for an entire month with three gallons, at a wholesale cost of \$1.10, as against four dollars for the same work from anthracite coal.

Denatured alcohol in Germany sells for twenty-seven cents a gallon in barrel lots, and at this price is effective in keeping the cost of gasoline and kerosene below the figures paid for these commodities on this side of the Atlantic where they are produced. To secure this fuel for use in Canada it will be necessary for the government to remove the restrictions upon its manufacture, and for some one to go into making of alcohol stoves and lamps. Obviously this latter will not be done until some move is made in government circles, and this is one of the reforms that farmers particularly should urge. Alcohol can very easily be made from farm products, potatoes being mostly used in Germany, and it is by long odds cheaper than gasoline.—Farmers Advocate.

15,000 Lives Annually.

At a meeting of the Canadian Medical Association held in Ottawa a few days ago a commission was appointed to investigate the milk supply of Canada and a paper was read by a prominent physician which contains startling facts.

It is the intention to have members of the commission selected from other parts of the Dominion, so that altogether he can when the Canadian Medical Association meets at Winnipeg next year, present a report and draw conclusions for further progress. In every instance the commission will work in conjunction with the medical health officers in the districts where the commissioners are located. One of the first things that will be settled will be a pasteurizing plant in Toronto, at which modified and certified milk can be dispensed to those who desire it. Having in mind the fact that 15,000 children die every year in Canada owing to poisoned milk, the importance of the work before this commission cannot be over-estimated.

Industry of Chilled Meat.

On the 4th of July a representative meeting of ranchers, farmers, and others interested in the establishment of an export trade in chilled meats was held in the "Department of Agriculture" on the Dominion fair grounds.

This meeting was presided over by the Hon. W. T. Findlay, Minister of Agriculture for the Province of Alberta, who opened the meeting and explained the object, viz., to continue the discussion commenced the previous day, on the desirability of developing an export trade in chilled meat, with a view to providing a better market for the surplus stock of the country, and so placing the ranching and farming industry on a better and sounder footing.

Mr. Stevens, the recently appointed live stock commissioner for the province spoke of the subject and presented some figures, showing the relative cost and profit to the producer sending to the British market a steer of 1400 lbs. on the hoof compared to slaughtering a similar animal near his own pastures and exporting the carcass in a chilled state. A like comparison was then made with a steer of 1200 lbs. weight the result being that in both cases exporting and marketing in a chilled condition showed a greater profit than the present method of exporting alive the advantage being particularly marked in the case of the lighter animal.

The feeling of the meeting was strongly in favor of practical steps being taken to establish this industry without delay, and it was suggested by Mr. E. G. Palmer, an expert in the chilled meat and packing business, and who is largely responsible for bringing the advantages of these methods prominently before the farmers of this province, that an Association should be formed for the specific purpose of giving effect to these views by united action. It was however pointed out that the existing organization, viz., the farmers' associations throughout the country could perhaps accomplish this object more readily and with less delay than a newly formed body. This proposal had the approval of the meeting with a result that a committee was formed consisting of the following gentlemen: Chairman, Frank W. Whiteside, president of the Western Stock Growers' Association, and Mr. E. G. Palmer, Secretary Treasurer Alberta Farmers Association (Innisfail); G. R. Matthews, of Macleod, of the Western Stock Growers' Association, and Mr. E. G. Palmer, of Edmonton.

The object of this committee, which is undoubtedly a strong one, consisting as it does of well known and influential men, is to obtain all possible data bearing upon the chilled meat business and kindred trades, with the view of placing the advantages of this system before the government, both Provincial and Dominion, in such a form as to enable practical steps to be taken to establish on sound lines a thoroughly organized system of cold storage, meat and packing plants throughout the Dominion for the purpose of developing this hitherto neglected trade and providing a better and more permanent market for the stock of this country.

The Hon. Finlay expressed his sympathy with this movement; he stated he was strongly in favor of developing an export trade in chilled meat, and promised to give all possible assistance and support to the undertaking; as soon as particulars and data were placed before him, he stated that he would have much pleasure in advising and helping to bring the matter prominently before the notice of the Minister of Agriculture for the Dominion.

It will be seen from the above that a very strong feeling exists among the farmers and ranchers that the time is ripe to take practical steps to establish this important industry which has done so much for other countries, and there is not the least doubt that by the information of this committee the first step has been taken to give practical effect to this feeling. Judging from the remarks of some of the speakers, it is evident that the present state of things—that is, the want of a certain and profitable market—is indeed desperate, and seriously threatens the principal industry of this country. There is not likely to be any turning back in the movement initiated by the formation of this committee. The names of the gentlemen forming it should show those who can read the signs of the times, that the matter will not be dropped, or shelved, or merely talked about, as has happened in the past. This time it really seems that something practical will be done, and done quickly.

PATENT'S PROMPTLY SECURED

MADE IT RIGHT.

Yet It Was Not Easy For the Salesman to Grasp the Best Scheme.

In one of the suburbs of London there is a wholesale firm the senior member of which may be known as Mr. Blank. The firm has two traveling salesmen—a single man, receiving 30 shillings per week, and the other a married man, drawing £2 per week. A short time ago the single man, being in the shop and looking over matters, discovered that the married salesman was receiving 10 shillings per week more salary than himself, while he (the single man) was selling more goods. He called Mr. Blank's attention to this and suggested that, as he was selling more than the other fellow, he should at least receive as much pay.

The senior partner acknowledged the apparent inconsistency and assured him that he would look into it and if the statement were correct he would make matters right. Another week rolled by, and when the single man came to draw his salary from the bookkeeper he was surprised to find only 30 shillings passed out to him the same as before. He murmured. The bookkeeper insisted he had received no instructions to raise his pay and referred him to the gentleman. Approaching Mr. Blank, he said:

"You remember, sir, I spoke to you last week about my salary, stating that, while I was selling more goods than the other traveler, I was receiving less pay, and I thought I should receive as much as he did. You assured me you would look into it and make matters right."

"Yes," said Mr. Blank, "I remember your mentioning the matter, and I made it right, didn't I?"

"Why, no! I don't see how you have, as the bookkeeper has just paid me the same amount as before. I can't see how that is making it right, sir."

"You don't understand," said the senior partner. "I have made it right. You thought you ought to have as much pay as the other man, and I have made it right by cutting the other fellow's pay down."—London Tit-Bits.

THE ENCORE HABIT.

How Sims Reeves Turned the Tables on One of His Admirers.

Sims Reeves, when in his day was accepted as the most celebrated tenor on the concert stage, was so much of a favorite that whenever he sang he was usually greeted with a hearty cheer, accompanied with enthusiastic cheers.

Reeves was very good natured about the matter, but he made it a rule never to sing more than one selection when he felt that his voice was not in first class shape. He happened to notice that an elderly man, who turned out to be a dealer in hats along the Strand, London, attended nearly every concert within convenient distance if Sims Reeves happened to be on the bill and generally led the encore brigade. This latter was a persistent person and often applauded until he had forced Reeves to respond to double and triple encores.

Determined to teach the little hatter a lesson, one afternoon just as dark was approaching Reeves entered his admirer's store and said, "One hat, please," naming the particular shape which he desired. The little hatter didn't recognize the great tenor and handed out one hat.

"Good," said Reeves. "How much is this hat?"

"Five shillings," said the store proprietor.

"Encore," said Reeves.

A second hat was forthcoming, and Reeves ultimately obtained three "encore" hats. When the little hatter demanded a sterling for the purchases Reeves pretended to be furious.

"Send these four hats to this address," ordered the tenor in terrible tone, "but I will pay for one hat. Do you understand? The three other hats are 'encore' hats. If you make me sing songs for nothing you must send me hats for nothing."

The little hatter was speechless—Portland Oregonian.

A Startling Debut.

A comedy of errors describes the first appearance on the stage of Mr. Huntley Wright. He was supposed to impersonate the wanderer of a madhouse, and the scene opened with a brutal hit treatment of the hero, and it ended with a gunpowder explosion. In his nervousness the wanderer dropped his cap, and, being agitated and short-sighted, he picked up the pan of gunpowder instead. It instantly blew up, nearly frightening him out of his wits. He rushed from the stage and collapsed, as he thought, on a stool in the wings, which turned out to be a fire bucket full of water!—London Answers.

Good Judgment.

"Your partner," remarked the privileged friend, "seems to be a man of unusually good judgment."

"You bet he is," replied the self acknowledged brains of the firm. "Why, he never makes a move without asking my advice!"

A Mean Question.

Charles—I heard the other day that Gerald is going to get married.

Edward—Well, why shouldn't he? He's comfortably well off.

Charles—Just the whole point. Why doesn't he remain so?"

Obstinacy.

"Why don't you quit smoking, old chap? You know it hurts you."

"Certainly. But every time I make up my mind to do it somebody comes around and tells me I ought to!"—Puck.

Notice.

THIS GEAR GIVES INSTANT ACTION TO KNIVES

Frost & Wood No. 8 Mower

It starts them going, power, it's the same instant the blades move, can't help it because the small piston drives the pitman crank with no lost motion. A mower's value lies in its power to cut grass—and lots of it—quickly and continuously with out a break-down. That's where our No. 8 Mower prevails. This internal gear works smoothly, transmits firm friction, and produces almost no heat. It produces almost no heat in any mowers is absent. The

WEDNESDAY, JULY 15th, 1908.

Dr. Clark, like Mr. Root, has been doing something for the good of his country.

He took a jaunt to England last year at the country's expense for about three months. The little jaunt cost the country \$775.01.

The account is divided as follows:

The Doctor's salary \$300.00
Expenses - - - 475.00
Unexplained - - .01

We cannot explain the .01 unless it was put in to show the amount of good the trip was to the country at large.

Dr. Clark's little trip to the old country last year, which cost the taxpayers \$775.01, sinks into insignificance when the trip of the Minister of Marine and Fisheries is taken into consideration. On that memorable occasion Mr. Brodeur spent \$8,000, for a three months jaunt, or at the rate of about \$90 a day. And the people pay the piper.

But even Mr. Brodeur has a conscience for he returned to the country \$800 which he did not appear able to spend, having drawn his expenses in advance.

Now we suggest that Dr. Clark take a pattern from Mr. Brodeur and return that dinky one cent back to the Dominion treasury from whence it came and show those Ottawa fellows that we are not going to have that poor orphan wandering around the west friendless and alone.

A CONTRAST.

R. T. Telford, M. P. P., for Leduc, has been hustling around the Parliament building, Edmonton, worrying the ministers for extra grants for repairing roads in his district. He did not waste a moment, he was up and doing what he was paid for doing, looking after the interests of his constituency. No doubt he got a substantial extra grant for roads and bridges.

How different to the way things are run in this constituency of Red Deer.

Our member, John T. Moore, is spending his time at his home in Toronto, while the constituency is allowed to drift like a diamond ship on the sea, without helm or compass.

We challenge anyone to show where a more flagrant breach of trust is to be found in Alberta to-day.

ON THE GROUND FLOOR.

A very interesting tale is told by a return recently laid before Parliament. We quote from the return:

The townsite of White Horse in the Yukon Territory comprises a number of group lots, each containing an area of forty acres, more or less.

The patent for lot 1 in the above group was issued in favor of W. W. B. Molnes on March 3, 1900, and this lot has since been sub-divided into town lots.

The patent for lot No. 3 was issued in favor of C. F. Molnes on March 3, 1900, and a portion of this lot was sub-divided into town lots.

The patent for lot No. 4 was issued in favor of Duncan C. Fraser on March 2, 1900, and it has all been subsequently divided into town lots.

The lots in question were sold at the rate of \$10 an acre, that being the price at which lands in the Yukon Territory were at that time being disposed of.

At the time these sales were made Mr. Molnes represented the riding of Vancouver in the House of Commons; Mr. Molnes sat for Antigonish, N.S., and Mr. Fraser for Guysboro, in the same province. It hardly seems necessary to add anything more, except that it is a good thing sometimes to be a member of the House of Commons.—Colonist.

The All Red Route Before Parliament.

Ottawa, July 9.—In the house this morning the "All Red Line" resolution was moved by the premier. The resolution commits Canada to assume her fair share of the necessary financial obligations, and declares that the colonies should with as little delay as possible agree upon a definite plan to be submitted to the imperial and colonial parliaments. Sir Wilfrid expressed the view that the establishment of this line would make Canada the highway between Europe and the Orient. The competition to be met was via the Suez canal and via San Francisco. The Suez route, he pointed out, takes twenty-nine days to Australia, and via San Francisco it was about the same.

ESTIMATE OF ROUTE.

By the "All Red Route" he gave this estimate: Atlantic, by 21 knot vessels, five days; if vessels of the Mauretania type succeeded, four days; across the continent in five days at the outside; on the Pacific 18 knot vessels by Vancouver to Auckland, N.Z., 16 days; and to Australia 21 or 22 days. He doubted whether this would be very satisfactory to Australia and it would therefore be necessary to consider a twenty knot service. That was again a problem. The four month delay was merely asking for authority to negotiate. It did not propose to ask parliament to put service beyond peradventure. The premier concluded by emphasizing the difficulties of the proposal. The idea was excellent, but he did not wish to give the house greater confidence than he possessed.

The financial part of the proposal was not to be worked out. So far New Zealand alone had made a definite proposal to give \$100,000 annually. The problem was in the Pacific.

HISTORY OF TRANSPORTATION.

Hon. Geo. E. Foster, who replied, went into the history of transportation between Canada and the Empire. The All Red idea was as old, he said, as the colonial conference of 1893, even to the name which had been suggested by a New Zealand delegation. He criticized the government for blocking a conservative 20 knot service from Britain to Canada in 1896 and for its failure with the Peterson's. He argued that the premier's proposal was different from that which had been approved by the imperial conference. For one thing New Zealand had demanded a 13 day service and offered its aid only on that basis.

Mr. Foster insisted that the House should have assurance that the government would not take advantage of this resolution to enter into a hard and fast contract binding the country to an expenditure of a million and a half a year for ten years.

FINANCIAL ASPECT.

R. L. Borden condemned the government for bringing the resolution down so late in the session. He pointed out that so far the project had been discussed almost entirely from the point of view of the mail and passenger service. After all, however, it must be remembered that cargo was an important element in transportation. He dealt with the financial aspect and recalled the burden resting on Canada of \$180,000,000 for the National Transcontinental as well as the necessity of developing our own ports and internal waterways. In view of these burdens we should be careful how we commit ourselves to further expenditure.

The Town Council.

At the Council meeting, Thursday, all the members of the Council were present, the Mayor presiding. Mr. W. Allan was secretary, and Mr. Greene, solicitor, was also present.

COURT OF REVISION.

The Council formed into a Court of Revision, when J. R. Cowell's appeal against the assessment of lot 5, block D, plan K, was allowed and the frontage reduced from 50 feet to 35 feet. Margaret Fowler's appeal against the assessment of lots 12, 13, 14 and 15, block B, plan K, was not allowed. The Council resumed in regular session again.

CORRESPONDENCE.

Auditor Blythe wrote that he would be out of the city on the 20th. C. O. Lott, agent of the C. & E. Railway townships at Calgary, wrote

somewhat exhaustively regarding the road between the southern quarter of section 17, west of the railway proper. He objected to a permanent road in the present location, but was not averse to the present road being used until the property was subdivided. He suggested a yearly lease, but the Mayor and Council thought that hardly necessary. They would try and put the road in good shape.

Mr. W. L. Walsh, K. C., Calgary, wrote that he would be up next week to discuss with the Mayor the question of machinery in the town.

There were several enquiries from brokers re. debentures.

The Sun Life wrote, enclosing the opinion of Alex. Bruce, K.C., Toronto, an eminent municipal law authority, which expressed some sympathy with the one objection raised by the Sun Life's legal adviser, but gave no definite opinion, and did not sustain the other objection. In view of Mr. Bruce's hesitancy the Sun Life would not take the debentures until they were drawn.

Mr. Greene pointed out when the matter came up in the consideration of the Commissioner's report that Loughheed & Co., Calgary, had agreed with him that the by-laws were valid, and that only one objection remained, viz., the rate of interest being specified at 5 per cent, when the debentures were sold at a discount to yield 6 per cent. As Mr. Bruce indicated, there were lots of other by-laws in the same order. Mr. Greene could find no judicial decision sustaining the objection of the Sun Life's legal adviser. It was finally decided that the debentures now on sale with the Sun Life Assurance Co. be withdrawn from sale, and that the Commissioners prepare a new set of by-laws and submit the same for a re-vote. This was in accordance with the Mayor's recommendation as being the quickest, and in the end, the cheapest, way out of the difficulty.

COMMISSIONER'S REPORT.

The Mayor submitted his report as Commissioner. The stockyard scales had been tested with the market scales and Hewson's scales, and found practically correct.

The Sun Life Assurance Company had declined to purchase the town debentures after four months' delay owing to technical objections which their solicitor raised, but which objections did not invalidate the debentures, according to the view of the town solicitors and of Loughheed & Co., of whom they might sell the debentures in their present form, the Mayor advised that new by-laws be drawn up and submitted to the ratepayers.

The report recommended a discount of the municipal rate for prompt payment, and an estimate of \$2111.30 as allowance for cost of collection, abatement and losses. This would amount to 14 mills on the assessment. The Mayor explained that the discount proposed for prompt payment of taxes would be 10 per cent, on municipal taxes, which would leave the net taxes 23 mills. There would be no discount on school taxes.

Councillor Botterill did not like the idea of having such a high nominal rate as 34, even though the real rate was 23. It was rather a hard year to start with the discount.

Councillor McKee knew that last year taxpayers left off payment of taxes to the last moment, because there was no discount for prompt payment.

The Mayor pointed out that the discount for prompt payment of the taxes was becoming a general rule, and that the town would gain in the saving of interest.

The revised estimates submitted in the report showed that \$17,283.35 was required for general municipal purposes, \$11,938.82 by the Red Deer School Board, and \$7925.59 for debenture coupons. The total amount of property liable for municipal taxes was \$1,407,535 and for school taxes \$1,871,870, of which \$1,479,535 was within the town. This would require a tax rate of 24 mills, viz.: 12 1/2 mills general rate, \$1 1/2 mills for debentures, and 9 1/2 for school purposes. The surplus would be \$310.12. This estimate, however, was included the \$2111.30 for the discount for prompt payment of municipal taxes, which amounted to 14 mills, and which would be saved by those making prompt payment.

Mr. J. R. Cowell had complained of bathing at the mouth of Waikaseo Creek adjoining his property as a nuisance. The report thought it might be well to have a by-law prepared making the wearing of bathing clothes compulsory within the town.

Councillor McKee and Gaetz had not much idea of stopping the boys bathing. Councillor Tallman spoke of the benefits to the boys of the swimming place in the creek up his way.

The Commissioner's report was adopted.

ACCOUNTS.

Accounts to the amount of \$1460.71 were presented and ordered to be paid. The principal items were: Edmonton Iron Works, cash balance, \$74.40; News Publishing Co., 00.50; Western General Electric Co., 316.65; Smith & Gaetz, 50.14; Gaetz & Gaetz, 45.45; H. G. H. Neville, engineering, 152.32; W. Springbett, 15.55; Hughes & Co., 27.71; R. C. Brumpton, lumber, 225.08; June Wages for Labor, 435.05; Union of Canadian Municipalities, 10.00.

HEALTH REGULATIONS.

The rules and regulations of the local Board of Health were considered

and passed. These provide for the removal and disposal of garbage, ashes, manure, slop, water, kitchen garbage, inflammable waste, non-inflammable waste, filth, litter, night soil, and any other refuse, so as to enforce cleanliness on the householders. Property owners fronting or abutting on sewers must connect with the sewers for the disposal of all slop water, unless where a special permit is given by the Mayor and Medical Health Officer. Other property owners must provide a slop hole by digging a two foot trench, covering same with planks and a close cover to exclude flies. The protection of refuse from flies is a chief feature of the by-law. No privy shall be used after being constructed until inspected by the Health Inspector. No privy shall be constructed or used upon any property which fronts or abuts on a sewer unless under a special permit signed by the Medical Health Officer and the Mayor. In case of the Medical Health Officer and the Mayor declining to grant a permit under sections two and seven of these rules, an appeal may be made to the Mayor and Council and their decision shall be final.

THEir CONCRETE CO. LEASE. The by-law leasing the land at the intake to the Red Deer Concrete Co. for two years at \$150 a year, the town to buy its sewer pipe from the Co. at set prices, was completed.

APPOINTED SECRETARY TREASURER.

Councillors Pidgeon and Tallman moved that Mr. A. T. Stephenson be tendered the appointment of Commissioner and Secretary-Treasurer in place of Mr. L. C. Fulmer at \$85 a month.

After some discussion as to salaries in the town office, the Mayor and Councillor Botterill thinking Mr. Allan should have more money, the motion was carried, no other name being mentioned.

Councillor Stephenson tendered his resignation as Councillor. He would give the Mayor an answer on Saturday as to the tender to him of the office of Secretary-Treasurer.

The resignation was accepted.

THE FALSE ALARM.

Councillor Gaetz understood that there was some dissatisfaction in the Brigade over the false alarm of fire rung in on Monday night.

The Mayor believed the Fire Chief was the man to test the Brigade in this way.

Chairman Botterill thought the Mayor should test the Chief as well as the men. There was complaint to him that the Chief favored certain men by giving knowledge that the alarm was to ring.

Councillor McKee believed that the Chief was the right man to ring in the alarm, but it should be done in a different way. It should be rung in at a distance from the hall.

The Mayor was very strong against dealing with rumors and stories when men were not prepared to make formal statements.

The Council adjourned at midnight.

Heat prostrates the nerves. In the summer one needs tonic to offset the customary hot weather Nerve and Strength depression. You will feel better within 48 hours after beginning to take such a remedy as Dr. Shoop's Restorative. Its prompt action in restoring the weakened nerves is surprising. Of course, you won't get entirely strong in a few days, but each day you can actually feel the improvement. That tired, listless, spiritless feeling will quickly depart when using the Restorative. Dr. Shoop's Restorative will sharpen a failing appetite; it aids digestion; it will strengthen the weakened Kidneys and Heart by simply rebuilding the worn-out nerves that these organs depend upon. Test it a few days and be convinced. Sold by Brown's Pharmacy.

WILLIAM REID

(Successor to Peck & Van Slyke)
 General Blacksmith
 Gaetz Avenue - Red Deer.

He Will Not Be Discredited.

Appropos of the Red Deer Advocate's explanation of its various attempts to discredit Mr. Root because he happened to be the choice of the Conservative party for the Federal House of Commons, the following statement is made: "A reasonable standard of care and accuracy in the presentation of news and views is part of the capital of a newspaper." This astounding principle of the ethics of journalism will certainly surprise the reading public as it is a very frank admission that no reliance is to be placed on the news of so-called reliable papers.

The extended citation from Mr. Root's Red Deer speech neither adds to nor takes from the quotation which the News gave from the same address. Neither one contains any allusion to the chicken business. Both show that Mr. Root stood ready to commend anything the government did that was in the smallest degree praiseworthy. But after he belittled the chicken industry, how is the Advocate would care to keep this history straight, we refer it to its own write-up of this meeting. As the program shows, T. A. Erick, M. P., Peace River; W. P. Ewood, M. P., Peace River; W. E. Puffer, M. P., Lacombe; John T. Moore, Red Deer, were scheduled to address the meeting on "What the Legislature proposes to do for the rancher. The financial position had been clearly and succinctly stated by Dr. M. Saneon, manager of the Bank of Commerce, Red Deer, and by A. Scott, manager at Edmonton of the Northern Bank. There had been no quibbling or evasion. Every listener learned just where the banks stood in relation to the ranching industry, and just what accommodation to expect from them. They expected the same business like perspicacity and lucidity of statement from the members of the legislature. The question was very simple, what the legislature proposes to do for the rancher. Let the reader bear in mind that these M.P.'s all were elected to the high trust of parliament by ranchers votes. Each one represented a district containing many ranchers and the beef industry was one of the leading branches of agriculture in each district. These men had a trust to keep in fostering this industry; quite as important to the province as the bonusing of the best industry; quite as important to the Dominion as the bonusing of the lead industry, the sugar refineries, the iron industry, the ship building industry, or the many other industries carried on by monopolies and owned by the government. This is now the members regarded the importance of the question. Red Deer Advocate: "Puffer is indefinite. W. P. Puffer, M. P., Lacombe, said they were asked what the legislature intended to do for the rancher? He had no authority for saying what would be actually done, but some of the questions that would receive attention were government operations, noxious weeds, prevention of prairie fires, and the appointment of special patrols for fire protection; also the game laws, black leg in cattle and the encouragement of poultry raising, and personally he was in favor of establishing an agricultural bureau. He had been called to task over certain appointments of brand inspector at Alix, Erskine, and Stettler, but defended his position and contended that the best men had received these appointments irrespective of politics. "The North Land," W. P. Bredin, M.P., Athabasca, made a powerful speech and drew the story of his particular district, some 400 miles north of Red Deer. When Chicago was a hamlet, and before Red Deer had an English name, the Hudson Bay Company had cattle on the ranges in the west, salt, gypsum, clays and coal, the greatest fresh water fisheries, abundant game, and the largest fur preserves. The president then called upon the "silver-tongued orator," John T. Moore, member for Red Deer who complimented and criticized the speakers who had preceded him, in an exhaustive, brilliant and witty speech. The president of the Board of Trade had referred to our American cousins but he preferred to call them our American brothers. He thought it behooved the government even in a monetary sense. The president's suggestion to put a tag on the ears of his Indian and his branding, should receive his support. As regards demurrage, if a railway company charged anyone for keeping a car too long,

the company should pay if they kept one waiting for a car. The trains should be run on time and different engines used. The C.P.R. should also provide more cars. He apologized for the absence of Hon. Mr. Finlay, Minister of Agriculture, who had asked him to express his regret that his duties prevented his being with them.

The public may safely be left to judge of the effect of these speeches. There was a body of earnest, hard-working citizens met together to confer upon ways of improving conditions in the cattle industry. They had with them for the first time in the history of Central Alberta representatives from the market of the U.S. They asked the government to define its position in relation to their industry, just as they asked the transportation company and the banks to do. And the government—Mr. Finlay, the minister to whose care had been entrusted the agricultural interests of the province, responded by sending a verbal message through Mr. Moore, Mr. Puffer who gave the occasion to boost the government for everything that did not directly concern the beef industry. He was the man to inject the "poultry fattening" business into the discussions of the ranchers' association. Mr. Bredin boosted the advantages of his own district. Mr. Moore said the nice things about the speakers and agreed with some of the things said by the speakers, but not a member came forth with a recommendation for the good of the industry, or a single suggestion of constructive policy on the part of the government. The ranchers had accorded the government the privilege of taking up and solving the vexed questions that were driving men out of the province, in any way it could devise. But they left the subject severely alone and talked against time for the amusement of the crowd. "They were weighed in the balance and found wanting." At the Erskine meeting no members of the provincial government were invited to take a place on the program.

Again the buyers from Chicago were invited, the commission men of Canada, Dr. Rutherford, Dominion Land Commissioner, and the several cities of Great Britain which import our Canadian Beef were asked to send some representative to the country where they grow the beef to confer with some of the ranchers of Manchester. The city of Manchester replied that they had a Canadian representative whom they would instruct to attend the convention. He wrote requesting that a stipend and hall be provided, for ranchers, which was done. Senator Talbot, belonging to this district was also invited to speak. The programs were printed. Just before the convention was to assemble a telegram came from Dr. Rutherford saying he could not come. He would send a substitute. At the same time a telegram came from the Canadian representative at Toronto that he could not come. However Mr. Talbot was present and Mr. Puffer being in attendance was given a seat on the platform and at the close of the session invited to speak. There was no attempt to "sit down on and effectually quash" any visitor or member because of party affiliations. Mr. Talbot had been invited to discuss the topic "What the Dominion government will do for the rancher." He seemed to come prepared to discourage any effort towards independent sheep raising on the part of the ranchers. We quote "we have one great drawback, we are more than 2000 miles from market which would make the deer; horses at \$120 would cost as much as \$200 through this long haulage, just as a \$40 steer would cost up to \$80." Again, "I have sent out cattle from Lacombe and from the States to Liverpool, but I find that a very small percentage only, throughout these parts are fit for the Liverpool market, that is only about 10 per cent can be considered first class stuff." Now I ask, what is to be done regarding the remaining ninety per cent. I wish some school boy would figure the freight on this." For the encouragement of the steer men he then recites what the government has done for the creameries; with regard to a body with regard to sending expert lecturers to instruct the new set-

ters; with regard to inspectors and the Beef Commission. Not a syllable about what the Dominion Government is prepared to do for the rancher except that he once heard a plan suggested which proved unworkable. It was certainly a remarkable exposition of what the Dominion Government is prepared to do for the rancher. In this connection the position of Hon. W. T. Finlay as recorded at the Innisfail meeting might be reviewed. He says "While the cattle industry was a great one he was not prepared to overlook the farmer and give preference to the rancher. Farming was the backbone of the country. Last year the sum spent in the creamery alone was \$1,160,000. In the matter of poultry they had only started, but when they considered that over half a million dollars were spent annually in bringing poultry and eggs into the country surely the matter needed consideration and should be helped. He did not run down the cattle interests. They were worthy of the same assistance, and when the report of the commission was received some action would be taken." Now it will be seen that the Government representatives have insisted upon injecting the poultry question into the discussions of beef men. It would be quite as appropriate to fill the time at a grain convention with talk of quality and weight of cattle, blackleg and mange. It would be surprising if things were the saving grace of humor so largely developed as Mr. Root, did not ridicule having the time of the stockmen's meetings consumed in boosting the government for the very small showing it has made in the poultry business. As Mr. Root's fiscal policy has no connection with "the belittling of rooster fattening" we will consider that in another column.

What ever knocking Mr. Root was guilty of was so insignificant that it was not recorded in the official journal, not out of consideration for the feelings of the Dominion Government, but because the meeting shows that the government was severely criticized by others on that occasion. So that the animus of the whole discussion is based on the fact that Mr. Root was a Conservative candidate and he must be discredited even if the Stock Growers have to be punished to do it. As the market question is just as grave, just as far from government help as the Dominion Government has shown year ago, we still contend that the Advocate could better employ its space in giving hearty support to Mr. Root's efforts to secure the removal of the tariff in the U.S. and the embargo in Great Britain than to uphold the introduction of poultry fattening by the government at the wrong time and place. Mr. Root thinks it is time the Government did something for the beef industry and so do we.

THE PROGRAMME.

Sir Wilfrid Laurier has stated to the House the programme for the remainder of the session which is expected to come to an end in a few days now. It embraces: Supplementary estimates, Railway subsidies, The Quebec bridge, Establishment of courts in New Ontario.

Provisions to be made in the supplementary estimates for the survey of the Hudson's Bay railway, it being understood that construction will be begun as soon as the surveys are completed. The list of railway subsidies is not yet settled. These things look very much as if we might expect an election this year. As a rule railway subsidies are not brought down except in the last session of a House, although the last Subsidy Bill was introduced this year before prorogation. Taking the whole programme, together with the recent announcements regarding the Georgian Bay Canal, and in view of the apparent certainty that the crop will be a good one, the outlook for an early election seems very much more probable than ever.

Rheumatism

I have found a tried and tested cure for Rheumatism. Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn back growth back to fresh again. This is impossible, but I can more surely kill the pains and ease of this terrible disease. I am a Chemist in the City of Toronto. I found the trial ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfect, dependable prescription. "Without formality cases all curable cases of this terrible, much dreaded disease. These and like granular wastes found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

Dr. Shoop's Rheumatic Remedy BROWN'S PHARMACY.

Price of Beef.

Cattle men are anxiously watching the beef market with the hope that better prices will be the order of the day in the near future. The Winnipeg Telegram says:

If the result of the action of the Beef Trust in raising the prices upon the English market, is to operate for the benefit of the embargo upon Canadian cattle, it will be another instance of a great evil turning to a great good.

The embargo was established while Sir Charles Tupper was Canadian High Commissioner. The pretence was that cattle coming from this country were diseased, and by a regulation of the British Board of Agriculture, they have to be slaughtered at the port of export. The vigorous protest made at the time the embargo was first put on by Sir Charles Tupper, disclosed the fact that it was really a protection for the British cattle breeder, and that there was no disease amongst the Canadian herds such as would warrant the quarantine. To protect against the United States herds which undoubtedly were diseased, a rigorous border quarantine was established by the Canadian government, but it was still made a pretext that there was danger of infecting the British herds.

The people of England who find their beef is getting expensive are not any worse off, however, than the people on this side of the water. During the last five months there has been an advance in the New York local prices of from three to six cents per pound. This is explained by one of the large dealers there to be due to the fact that the farmers in the Western States were frightened by the bad times last fall and sold their stock instead of keeping it over to be grain fed, and it is claimed that towards this autumn the prices will again gradually lower as the new stock comes into the market.

Whatever the cause, there is no doubt that the majority of people who have to buy meat do not understand the reason for the difference between the fancy prices they are asked, and the paltry price paid to the producer. The situation in England may have the further result in bringing about an official enquiry by the home government into the whole beef question. If it does, there will be a possibility of securing at the real source of the trouble as such an investigation would necessarily have to cover practically the whole source of production, Canada and the United States as well, and it would afford an opportunity for an analysis showing what each of the elements of expense consist of, the production, transportation, handling, slaughtering and selling. There is one thing certain, if prices continue to soar, meat as an article of daily food, will soon be out of the question for a large portion of the population upon this continent at least.

Dr. Clark's European Trip.

Edmonton Journal.

Last year the federal government sent thirty-five special immigrant agents to Great Britain and Europe at a cost to Canada of over twenty-one thousand dollars. Just what the duties of the so-called agents were, have not been disclosed.

Dr. Clark, of Olds, and Liberal candidate for Red Deer, was one of the representatives and he charged for his three months' outing as follows: \$300, and expense \$475.01, total \$775.01. Evidently he fared well on his trip, but one would think that as magnanimous a person as Dr. Clark would have lopped off that extra cent. It does seem small after having had such a good time at public expense. In the same connection, Rice Sheppard, of Strathcona, received for salary and expenses, \$815.10; J. Kennedy, of Edmonton, \$752.05; John Plucker, Port Saskatchewan, \$733.35, and J. McHugh, Calgary, \$387.87.

It is not known that there has been any great influx of settlers into Edmonton district because of these expeditions to Europe, to "drum up" business. It is not even known that any water was induced to come into the country, much less the district; indeed, it is not known that these men did anything save have a good time on the money paid them by the people.

It is altogether too galling to be called upon to pay over \$20,000 to a few men who happened to be in the good graces of the government and desired to have a holiday jaunt to England and the continent, but it is only one instance out of a thousand and one others where the people are asked to dig deep into their pockets and often so as to provide flesh pots for a host of hungry politicians, useless officials, special immigration agents, middlemen, contractors, road house men, third-class accountants, Merwins, Wallbergs, and so on to infinity.

They Will Now Reap The Whirlwind.

An old time Liberal of Halifax has been hurling some hot shot into the ranks of the grafters, and the corrupt Ottawa politicians. He says:

We are face to face with the fact that in Canada corruption has been reduced to a system, a master-system, which pervades the political and administrative branches of the public service from top to bottom.

Parliament was corrupted at wholesale by two successive salary grabs, rotten beyond all precedent in Canadian history. The great statesmen who brought about the union of the provinces, who established and gave Canada a place among the nations, were corrupted in parliament for a sessional indemnity of \$800 to \$1,000.

Under the present regime of graft and extravagance, by secret and tortuous methods, this has been raised to \$2,500 per session, and the cost of legislation has been raised to five fold what it was. Even this is but half the story of the corruption and humiliation of parliament. Members of both houses have become as never before, shapers of rakes-offs and participants in the profits of contracts, directly or indirectly.

Where this is not done directly it is done indirectly, through a son or daughter, a son-in-law or brother-in-law, a partner or co-conspirator.

In contracts, in the furnishing of supplies, in the purchase of sites for public buildings or works, in land deals and timber limits, the number of parliament, or some relation, or next friend ready to divide the spoil with him, is always at hand close behind the scene.

Quebec rule has demoralized the parliament of Canada to a depth of degradation never known before.

The corrupting stream from Ottawa, grown swollen and turbid, flows out to every constituency in the land, through ministers and members fat with spoils, for the corruption of the electorate.

So notorious is this fact that almost every annual assembly, synod, conference or association of our religious bodies have been moved to place on record their protest against the rank and prevalent corruption.

And what of the government whose corrupt and corrupting influence has brought the country to such humiliation and degradation?

Are ministers penitent for past wrong-doing, and showing sign of giving up the idea of future amendment? That were a consummation devoutly to be wished!

On the contrary most of them are impatient, if not shameless, defiant and growing more and more rapacious as they see the day drawing near when they must give place to better men.

Fearing that their old methods of jobbery, corruption and press druggery may not again be sufficient to secure re-election, they planned to seize the Manitoba lists!

Old Eli reproved his sons, we are told, but "he restrained them not." This is the sin of Wilfrid Laurier, deserved or no, shortly punished by the shock of a lost battle.

For that grim struggle the forces are already gathering. Tidings from the east and from the west have already troubled him in the seat of his power. The churches are mustering their forces, the moral sentiment of the country is rallying against him, the men of high ideals, once applauding him are now in revolt.

The honest workers, earning their bread by daily toil, are in revolt against a regime that has doubled their burdens, plundered them under the form of law and wasted the forced exactions in political rivalry.

The loyal patriotism of Canada is in revolt against public thievery, the exhibition of shamelessness in high places, the degradation and infamy brought upon the fair fame of the country.

On the other hand closer and closer about the tottering fabric of the government the cohorts of evil are rallying, the hungry grafter, the rapacious middleman, the extra-loving contractor, the tricky dealers and heeler.

It was ever thus—where the putrefying carcass is, there will the jackals and vultures flock together. It takes millions to feed them now!

Other governments have had to fight against these dirty birds and beasts of prey, but never in such swarming numbers, and never yet was such feeble effort made to drive them away.

Laurier is apparently unconscious of the strength and breadth of the gathering storm. He is deceived and lulled into false security by the fawning, cringing sycophants about him.

All indications go to show that he will meet with the surprise of his life when the people are permitted to speak. Let Canada prepare for the coming overthrow and then to build again a better governmental fabric on the better foundations of truth, honor and probity. Thank Heaven the majority of

the Canadian electorate is yet sound at heart, honest and clean. They are awake to their duties and responsibilities. They are beginning to realize it is the people's battle that is coming, be it this year or next.

Led, as they will be, by strong men of every province, they will win the fight, cleanse the now defiled temple of our liberties and once again establish clean, honest and patriotic government in the Dominion of Canada.

AS A CAPITALIST.

A Fakir Whose Abilities Equal Those of Captains of Industry.

The president of the Western Hemisphere bank sat in his easy chair smoking a fragrant Havana and meditating upon the lessons of the late business panic when the door of his office was opened and a tall, slim man wearing a Captain Street hat and a suit of fancy blue, entered the room.

"Beg pardon, sir," said the caller, removing his hat and sitting down in another chair, "but you are the president of this bank, are you not?"

"How did you get in here?"

"I was told by one of your subordinates that I would find you here, and, in fact, I did."

"Who the devil are you?"

"My name is Glasspy. I am an inventor."

"What do you want?"

"Nothing, sir, if my presence is objectionable. My object in calling was to arrange for the depositing of a sum of money."

"The cashier attends to all that."

"I know it, but the amount is so large that I was sure he would refer me to you, and I thought it best to come straight to headquarters."

"How large is the amount?"

"One million dollars."

"In cash, I may add that it is the outcome of a financial scheme which in these uncertain days even the president of a great bank may well consider."

"But the money—is it in such a shape that you are ready to deposit it?"

"No, sir. As I was about to explain, the money will not be available until certain carefully considered plans mature, but it will be in cold cash when I am ready."

"Is it contingent on a business scheme?"

"Yes, sir, it is. But the scheme rests on business principles as solid as Gibraltar and as broad as the Rocky mountains. It is contingent upon the success of two great inventions—namely, Glasspy's celebrated shining compound and Glasspy's footpad discourager, an absolutely unique device, which I shall explain to you presently."

In order to exploit these two inventions properly I need the sum of \$250,000, treasury notes preferred, to be regarded as a loan until the returns begin to flow."

The president pushed a knob on the side of his desk, and a husky, uniformed bouncer instantly appeared.

"William," roared the official head of the Western Hemisphere bank, "take this man out and fall on him!"—Chicago Tribune.

After Annual Dinner.

Tubbs—Come inside an' have a final, o' man.
Tootie—Don't shink shoo, Rara late (looking at his watch). How's the enemy?

Tubbs—Oh, thank all right, o' chap. She's in bed.

His Toast.

The difficulty of saying a suitable thing about an unrepentant person was once cleverly surmounted by the great Duke of Wellington. At a Mansion House dinner he was asked on to propose the health of the lady mayors, whom he had never seen. The duke got up and proposed the toast, describing the subject as "the model of her sex."

Now, the lady happened to be a very plain, wizened little woman, so the then Lord Ellenborough afterward called the duke how he could describe that ugly little creature as the model of her sex.

"Why," said the duke, "I thought I did very well. I had never seen her before and didn't know what she was like, and some models are blamed ugly!"

Strenuous Days.

"These letters over the banquetts between college classes are little short of criminal."

"Oh, I don't know. My boy is a sophomore at one of the big colleges, and he is kept so busy paying his share of the damages wrought by his class that he hasn't any money left for ordinary foolishness."—Cleveland Plain Dealer.

Minute Glory.

The young man was admiring her beautiful and abundant hair.

"What a wealth of it there is!" he exclaimed. "When you loosen it, I suppose it drops to the floor?"

"Hub!" broke in the little sister of the young woman. "It drops on the floor!"—Town and Country.

The Missionary From Michigan.

There was a missionary who went from Michigan with tracts to make more tractable the savage hunting man.

Alas, the missionary—The tale's too long to tell! He'd go that missionary.

On Mary McLeod Bethune's Field in Woman's Home Companion.

Something More Than Luck Here.

In Three Years the Burrows-Fraser Group of Speculators Acquired 3,000 Square Miles of Timber Limits.

Speaking 19th May, H.B. Ames, M.P., said:

"Within the comparatively short period of three and a half years, between 1902 and 1905, more than three thousand square miles of selected timber, that is to say about one-half of the entire area under lease in the western provinces fell into the hands not of operators, but of speculators."

One-half of the amount, comprising 25 per cent of the timber of the three provinces, Manitoba, Saskatchewan and Alberta, was acquired by a group which may be called the Burrows-Fraser combination, of which the brother-in-law of the then minister of the interior was the central figure, under circumstances so peculiar as to have excited general comment.

An analysis of the holdings of this group shows T.A. Burrows as having acquired 549 square miles. The Imperial Pulp Company, 417 square miles, the Big River Lumber Company, 250 square miles, A.W. Fraser, alias John McBean, 250 square miles, A.W. Fraser, for himself, 120 square miles in all, 1,566 square miles of selected timber, only 100 square miles of which are being operated, the remainder held, presumably for speculation.

The extent of the holdings of this favored group may be illustrated. Were these selected blocks, nearly 250 in number, out of an area many times their size, placed side by side they would form a continuous strip of thick timber, one-half mile wide, stretching from Montreal to Winnipeg, or, putting it another way, their combined areas would completely cover two of our provinces, such as the Stanstead and Brome.

For the year ending the 30th April, 1907, sworn returns furnished the department of the interior, show that eighty berths in the three provinces aggregating 1,125 miles, furnished all the sawn lumber marketed during the year. The ex-minister of the interior has told us that the supply was ample to cover the demand.

And June 6, are justified in concluding that 1,200 square miles of timber limits could easily fulfill the present requirements of the three western provinces.

The holdings of the Burrows-Fraser group, therefore are more than sufficient to supply the entire demand of the western provinces for sawn spruce lumber.

In the acquisition of these limits, under the quasi form of competition then followed by this government, the members of the "Inner-Circle" have been remarkably successful. T.A. Burrows, brother-in-law to the ex-minister of the interior, owned in 1901 three limits. Between June of 1902 and June of 1905, Mr. Burrows had, directly or indirectly, nineteen times for timber berths. He succeeded eighteen times. He failed once.

Piles are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box at a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember it is made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Sold by Brown's Pharmacy.

Local and General

R. C. Brumpton took a run to Medicine Hat last week.

Mr. and Mrs. Rainey returned to Red Deer on Monday.

Mrs. J. Carlyle Moore is visiting her brother in Winnipeg.

Mr. Wells, of Tiverton, Ont., is spending a short time with his son W. Wells.

Mrs. Davis, of Fleming, Sask., is the guest of her sister Mrs. W. J. Bottorli.

Sheriff Mellor was confined to his bed with a serious cold over Sunday.

Mrs. Addison, of Toronto, is visiting her brother, Dr. Plaxton, and Mrs. Plaxton.

Mr. Edmonds, father of Mrs. L. M. Gaetz, returned to Winnipeg on Saturday last.

Councillor Tallman reported having new potatoes for dinner last Wednesday, July 8.

Mrs. E. G. Cowdery and daughter of Chicago, are the guests of Mrs. W. A. Moore, Waskasoo Park.

Ivan Greene, son of Geo. W. Greene is home from Western Canada College, Calgary, for his holidays.

S. D. Haydon has been gazetted sheriff's bailiff for Red Deer, and Charles K. Wright a commissioner for taking affidavits.

W. L. Gibson, of the Bank of Commerce, was usher of the Martin-Beech wedding at Edmonton on Thursday last.

Two new sectional book cases and two new folding go-carts also any of my household furniture, for sale cheap. A. B. Purdy.

The person who borrowed the post hole auger from the rear of post office block will greatly oblige by returning same to F. Mott, the owner, who has need of it.

Jos. Slade was busy spraying spruce trees early in the week. The small worm has been very active of late and many spruce trees in town have been ruined by this little pest.

In the 2.35 pace or 2.30 trot at the Dominion Fair on Tuesday, 7th July, James Marr's (Red Deer) Dr. Cloud, a 40 to 1 shot, won out on the fifth heat. His record was 3, 6, 2, 1, 1, and his best time 2.193-4.

A cadet corps is being formed in town by Dr. George, who has authority from Col. Steel, the district officer, for this purpose. Boys are allowed in the corps up to 18 years of age. So far some 25 names have been enrolled. It is expected Sergeant Jack Oliver will be drill instructor.

The Alberta Jewelry Co. are moving to Calgary where they will make their headquarters in future. All persons owing R. A. Jacobson or the above firm are requested to call and settle their accounts and parties having accounts against the firm will kindly hand in same at once as the books must be straightened on or before the 31st of July.

A. T. Stephenson has accepted the position offered him of Secretary-Treasurer of the town of Red Deer and took charge of his office on Monday last. Mr. Stephenson's resignation from the Council causes a vacancy on the board, and H. B. Hill, of Hill, Murphy & Co., one of Red Deer's popular citizens, has been pressed by a number of ratepayers to allow his name to be put in nomination to fill the vacancy, and we understand he has consented to do so. Mr. Hill should make a good councillor, and we hope he stands.

Headaches Due to Eyestrain

can be corrected by properly fitted glasses in properly adjusted frames. Many nervous disorders arise from neglect to procure glasses or from improperly fitted glasses.

Don't take any chances. If you have eye trouble consult an optician whose reputation for good work inspires confidence.

Our optician Mr. Gaetz has made a success of this work that is too well known to require comment. Make an appointment with him and he will help you.

The Gaetz-Cornett Drug & Book Co., Ltd.

If you want a dish of fresh fruit and cream with a cup of Tea, try the English Cafe.

Campers will find a complete line of magazines, books, etc., at Grieve & Co's Drug Store.

Drs. Smith and Plaxton have decided to close their dental parlors Saturday evening in place of Wednesday, as heretofore.

ST. LUKE'S GARDEN PARTY.

The garden party of St. Luke's Guild held at "Woodlands," the beautiful grounds of Mr. and Mrs. H. S. Stant, on Thursday evening last, was a pronounced success. The citizen's band was present and discoursed sweet music. There were coconut shy contests, rifle shooting, lawn tennis, croquet, and other games. In the evening there was a splendid concert, the different numbers being taken by: Mrs. Dr. Collison, Mrs. Lewis, Miss Cowell, Miss Davenport, Mr. Bales, Mr. Kent, Mr. Page, vocal; Mr. Galloway, flute and piccolo; Mr. Bergfried, violin; Mr. Patchett, piano. Miss Patterson also favored those present with a splendid sword dance.

Space forbids us giving a lengthy report, but we have no hesitation in saying the garden party was the most successful ever held in Red Deer. The scene looked like fairy land, the night was an ideal one, and all enjoyed to the utmost the festivities.

The different committees were: Tea Tables—Mrs. Sage and Mrs. Lewis, conveners; Mrs. Reed, Mrs. Ayres, Mrs. Miller, Mrs. Pidgeon, Mrs. Carwell, Tea and Coffee—Mrs. B. Alford, Mrs. Watkins, Mrs. Rich, Mrs. Cassels, Ice Cream—Misses Rich and McKenzie. Candy and Lemonade—Mrs. Welliver, Mrs. Drake. Fortune Telling—Mrs. Page, Mrs. Edgington. Coconut Shy—Mr. Moore, Mr. Galloway. Tennis—Messrs. Maynard and Lewis. Shooting Gallery—Messrs. C. Cowell and Cassels. Concert—Mr. Moore.

You don't have to accept a substitute for the Imperial Palmer Piano under our new system of purchase. Enquire The Wright Agency.

James Erickson, east of town, had a curiously lost week in the form of a chicken with four legs. It was alive and doing well on Wednesday.

One of the features at the exhibition this week will be the brush outer which will be on the grounds for the inspection of farmers. Come in and see it work.

The regular monthly meeting of the Alberta Natural History Society, Red Deer Branch, will be held at Mrs. Tallman's Tuesday evening, July 21st at 8 p.m. Miss Cole will deal with some of the flowers of Alberta.

A man whose name we cannot ascertain had a narrow escape from drowning at the mouth of Waskasoo Creek Sunday. We believe he took a cramp and sank to the bottom, the water being over six feet deep. He was nearly dead before he was rescued.

A tented wagon passed north on Gaetz Avenue, Monday, with the words printed on the side "Peace River or Bust." We couldn't see the other side, but presume it was reserved for the return trip, when the inscription will be "Peace River, Busted."

In Jersey at the Dominion Fair, C. A. Julian Sharnan, of Red Deer, took second in bull three years and over, under one year, females, under two years; and herd of three animals. B. H. Bull's Sons, Brampton, Ont., were the chief and only other prize winners.

The young son of H. W. Clarke while playing on the light bridge crossing the Waskasoo creek last Sunday tumbled in the water and was being rapidly carried away when Eric Smith who happened along bravely dived in and rescued him from drowning.

The annual picnic by the general public will be held at Sylvan Lake on Friday, July 24th. There will be sports of all kinds and everybody is invited. H. A. Mitchell has the matter in hand and has secured a number of prizes from the town merchants and citizens at large. And a good time is assured. Come along and bring your basket. A program will be out in a few days.

Trooper W. F. Patchett, of Red Deer Troop of 15th Light Horse, left on Friday evening for Calgary where he was attached to the Alberta contingent for the Quebec Tercentenary which opens in a few days. As there is no pay attached to the trip, Trooper Patchett was presented with a purse by his fellow troopers on the eve of his departure. We are pleased to see that a splendid military spirit is developing in this district, and Lieut. H. L. Gaetz has enlisted roles which are now being signed for the formation of a squadron with headquarters at Red Deer, and we hope in the near future to see work start on the new armory.

Bathing caps and swimming bags at Grieve & Co's drug store.

Ed. Burns left last week for his homestead to the north.

Mr. B. Krause made a call at the farm and a few neighbors last Sunday.

Where is that social gone to? Not to Sylvan Lake for the summer, it is hoped.

BIRTH.

At Memorial Hospital, Red Deer on July 8, 1908, to Mr. and Mrs. Edward Hunter, Didsbury, a daughter.

Drake's home made pork and bologna sausage are the best on the market.

Poplar Ridge.

Mrs. W. H. Atkins has again moved back to Poplar Ridge, and is living in the house her son, W. R. Atkins, has built for her beside his own.

Mr. Tipping preached in the school house last Sunday morning on "The Fatherhood of God." Quite a good crowd turned out to show their appreciation of a good sermon.

Mrs. Perrier, of Red Deer, is visiting friends in the neighborhood.

Ed. Burns left last week for his homestead to the north.

Mr. B. Krause made a call at the farm and a few neighbors last Sunday.

Where is that social gone to? Not to Sylvan Lake for the summer, it is hoped.

Horn Hill.

The Horn Hill football club and Epworth League will hold their annual picnic on Friday July 24th, on the football grounds. Sports of all kinds are being arranged, dinner and supper will be served on the grounds and a good time is guaranteed to all. Come and bring your friends.

Evarts.

Editor of News.

Sir—
In the Advocate dated the 3rd July appeared a letter signed by Observer. He is evidently anxious to stand between the poor man and his beer. There has always been that type of man in existence. 300 years ago they caused Shalimar to exclaim: "May I not take mine ease at nine inn." The same poet also asked: "Are there to be more cakes and ale because thou art virtuous?"

The teetotal faction have been active at work nearly 100 years and yet they are as far from their goal as ever, judging by the amount of turnover in the trade. The fact is that the working man does not want and will not allow either total abstinence maniacs or government officials to treat him as a baby in long clothes, take away his drink and give him a rubber ring to suck by way of comfort. We mean to retain our freedom to eat and to drink whatever pleases us, and any government official to touch these our cherished liberties may tremble in his pants. If we allow them to withdraw the beer barrel, who knows that they may feel emboldened to attack some other freedom of ours, and place it under the beloved sausage. It may well be contended that there is little reason to fear the teetotaler. He is a 95 percent honest water and 5 percent of harmless, chemical concoction, and has been forcibly said that it is possible to burst, but that one can never get intoxicated on it.

Let the teetotaler use their enthusiasm to induce the brewers to infuse in it just a little malt and hops, and to make a reduction in the price from 15c. for half a glass to 10c. for a good schooner, and even then they will be buying a harmless, chemical concoction, and have been forcibly said that it is possible to burst, but that one can never get intoxicated on it.

W. T. COOTE, "The Shoe Store of Quality."

UNION JACK EXCHANGE SALE YARD.

CAETZ AVENUE RED DEER.

I will sell by Auction at my Saleroom,

TUESDAY, JULY 21,

Upwards of 200 lots of

New and Second-hand Household Furniture, Cook Stoves, &c., New and Second-hand Sewing Machines Bicycles, Safes and Organs. Also Farm Wagons, Harness, Implements and Horses.

The sale will take place the same day as the Great Circus is in town, and to enable those who wish to attend both, there will be a morning sale at 10 o'clock to close at noon, and an afternoon sale at 5 o'clock.

Everybody come and have a good time, both in the Circus and in Bargains at the Auction, as Genuine Bargains are guaranteed.

TERMS OF SALE:

\$20.00 and under Cash. Above that amount, Joint bankable Notes for 3 months will be taken with interest at 8 per cent.

Persons not wishing to take goods home that day, can leave them for a week by paying 20 per cent of the purchase money.

All articles will be numbered, and a catalogue is in preparation, and can be had of the Auctioneer and Proprietor.

FRANK MOTT,
THE RED, WHITE AND BLUE STORE.

Special for Fair Week!

5 only 28-inch Adams Wagon Boxes, less seat, at one-fourth less than cost price, namely \$14.75. These Boxes are blistered with standing outside, and some are warped, but all good Boxes—some better than others. Come and get first choice.

This is an opportunity to secure a good hard wood Wagon Box at 25 per cent less than cost. This offer stands until July 20, and only five to go at this figure.

Our ambition is to have nothing but bright, clean, up-to-date goods, and as these boxes are not strictly in that class, therefore they must go at a loss.

Look us up while at the Fair. Our 1908 Binder is a dandy. Better look them over.

Please leave that Twine order.
